Subject: RE: Posting the disclaimer -- Follow up from August 5th Scientific Integrity Panel

Sensitivity: Confidential

John,

That document was archived as part of the One EPA Web transition. It's official location is at http://archive.epa.gov/dclead/web/pdf/grounding_effects_study_final_november_2006.pdf It cannot be changed once in the archive.

The only reason the document is still found on the region 3 site is that it was re-posted after someone in WPD contacted our web contractor. It should not be there and I will request it be removed.

John
